

# Health Insurance. Your Way.

HealthSherpa is here to provide you with decision making and enrollment support. Your employer is offering health benefits through an Individual Coverage HRA, or ICHRA. This means they are providing you with a monthly contribution amount that you can use to help pay for your individual health insurance coverage each month. Premium costs above this amount, if any, will be your responsibility and will be payroll deducted.

You will receive a notice from your employer outlining the details of the ICHRA, including the monthly contribution amount provided. They will also provide payment information for you to secure your coverage once you have selected a plan.

**HealthSherpa provides an enrollment platform and a support team to enable enrollment in individual health plans.**

With an ICHRA, YOU get to choose your health insurance plan based on what matters to you.

Our ICHRA Consumer Advocates are licensed insurance experts, and they're available to help by phone, email, or chat support.

HealthSherpa is a **certified partner of Healthcare.gov**, which shows all plans and prices available to you on the Marketplace, and is available year-round for any shopping, enrollment, or coverage questions.

**Enrollment must be completed between Nov. 1st - Jan. 15th!**

**To get started:**
